Analysis of current Sustainability Code Users

by Yvonne Zwick, Chairwoman based on the Code Database, 22.01.2023

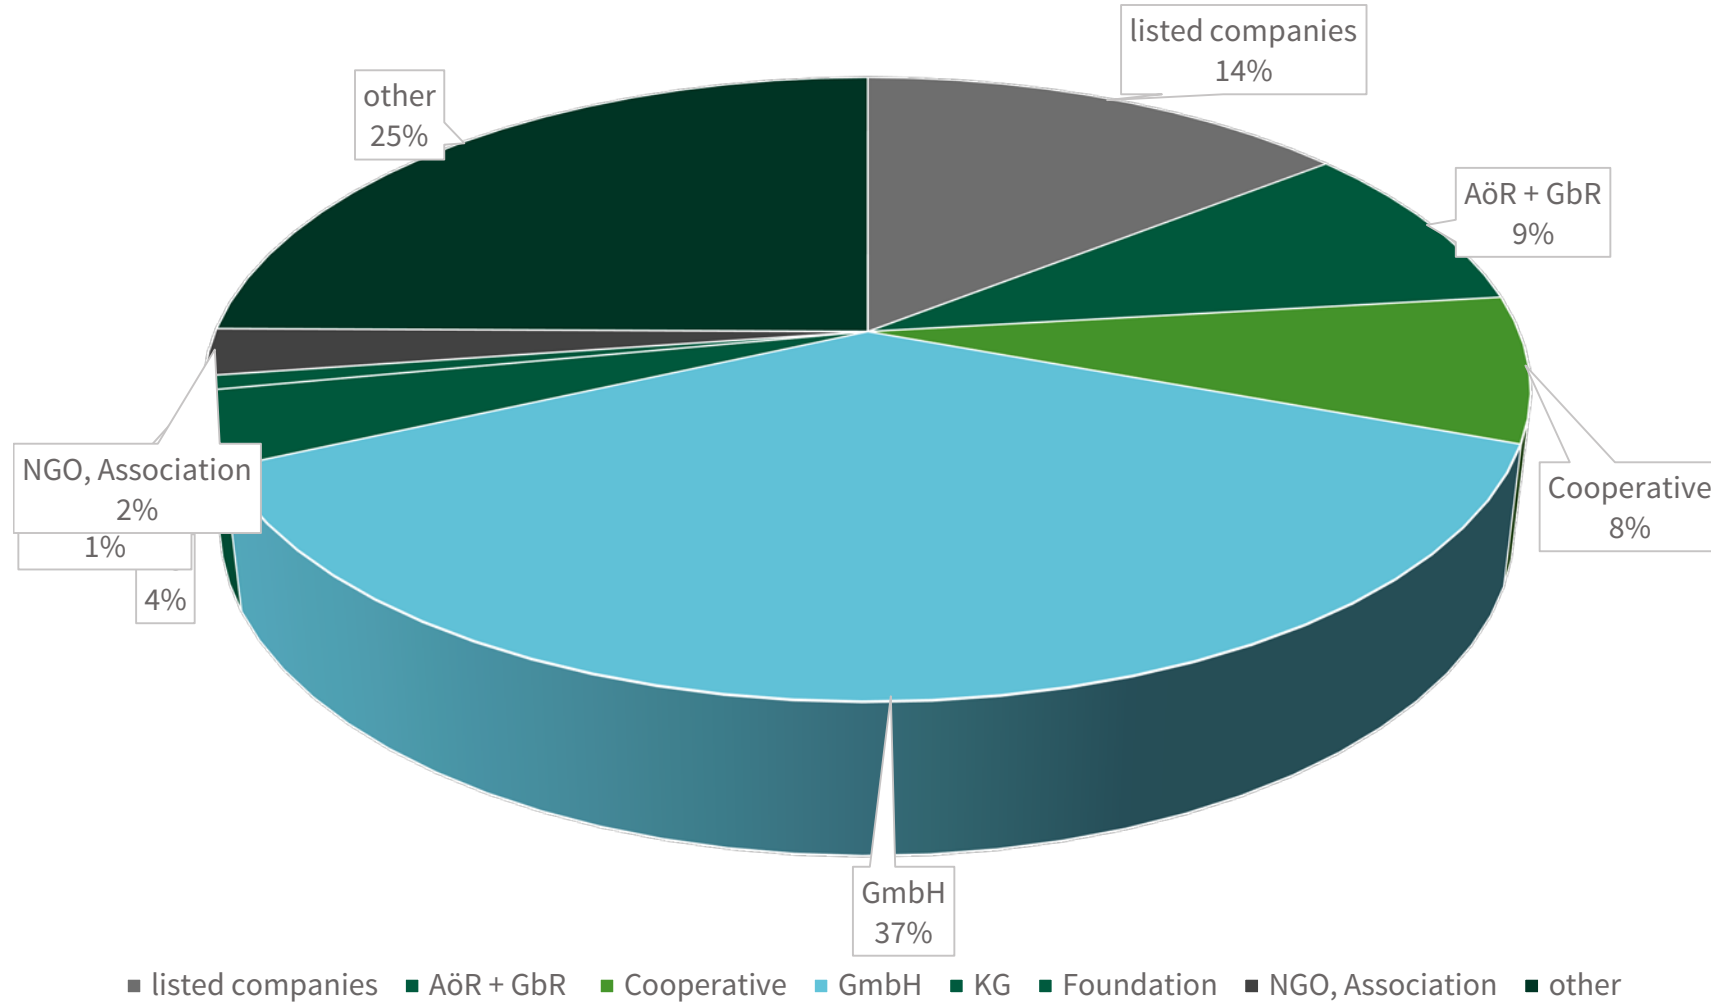

- The analysis was furnished 22/01/2023 based on data published in the Sustainability Code database (see filter options [Deutscher Nachhaltigkeitskodex - Database \(deutscher-nachhaltigkeitskodex.de\)](https://deutscher-nachhaltigkeitskodex.de))
- N = 944 organizations having a variety number of reports published
- Following the information of the Sustainability Code Office, three times as many companies are active in the database. They work in or with it in one way or another. Experience shows that many companies publish their reports in line with the Sustainability Code and use the free infrastructure as a reporting tool for this purpose.

Company size according to number of employees

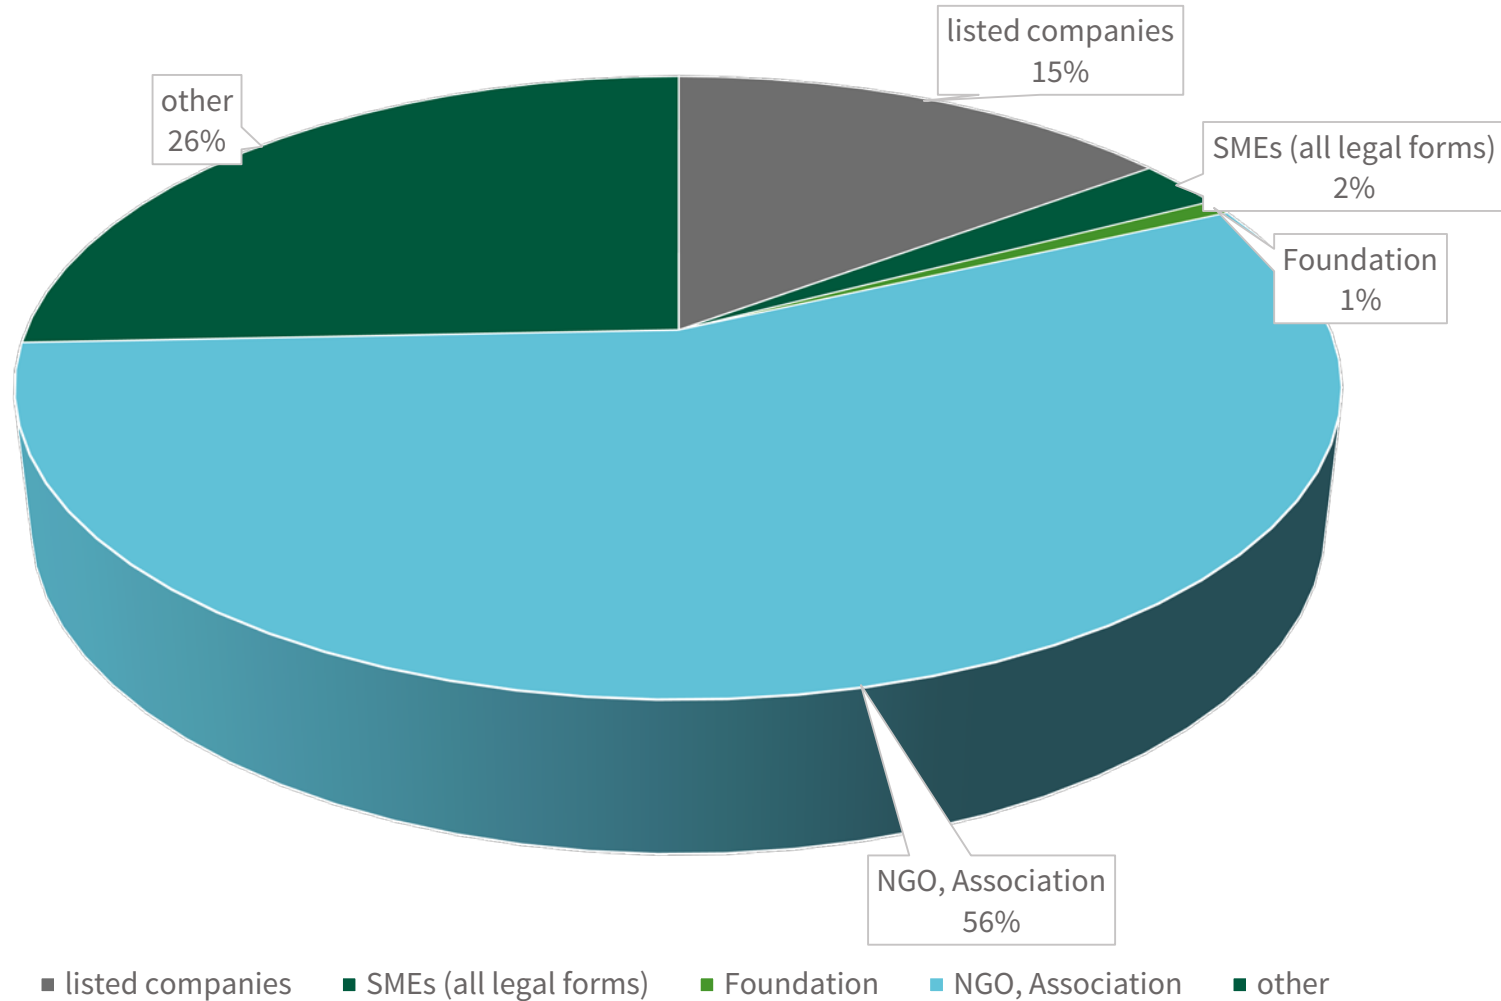

USERS DIFFERENTIATED BY LEGAL FORM

Legal forms (according to self-classification)

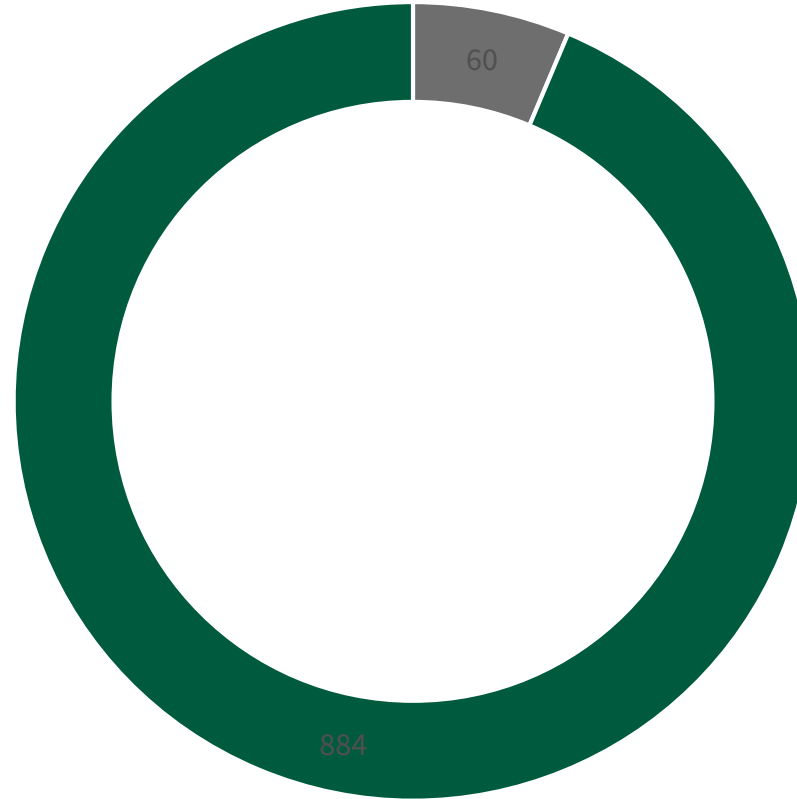

FUTHER CONSOLIDATION OF USERS DIFFERENTIATED BY LEGAL FORM

Legal forms (according to self-classification)

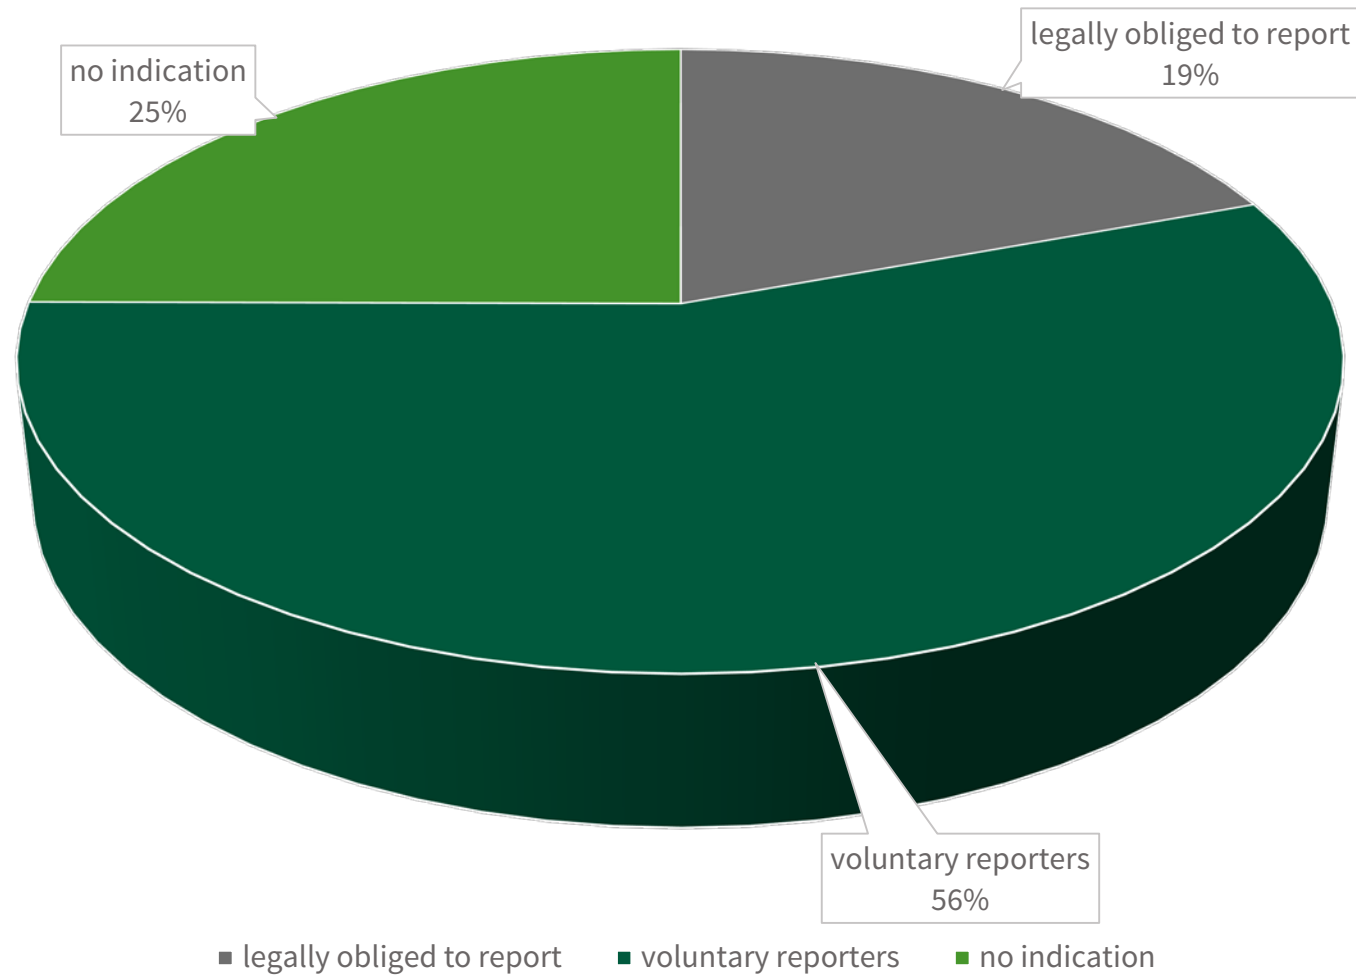

Listed: yes/no

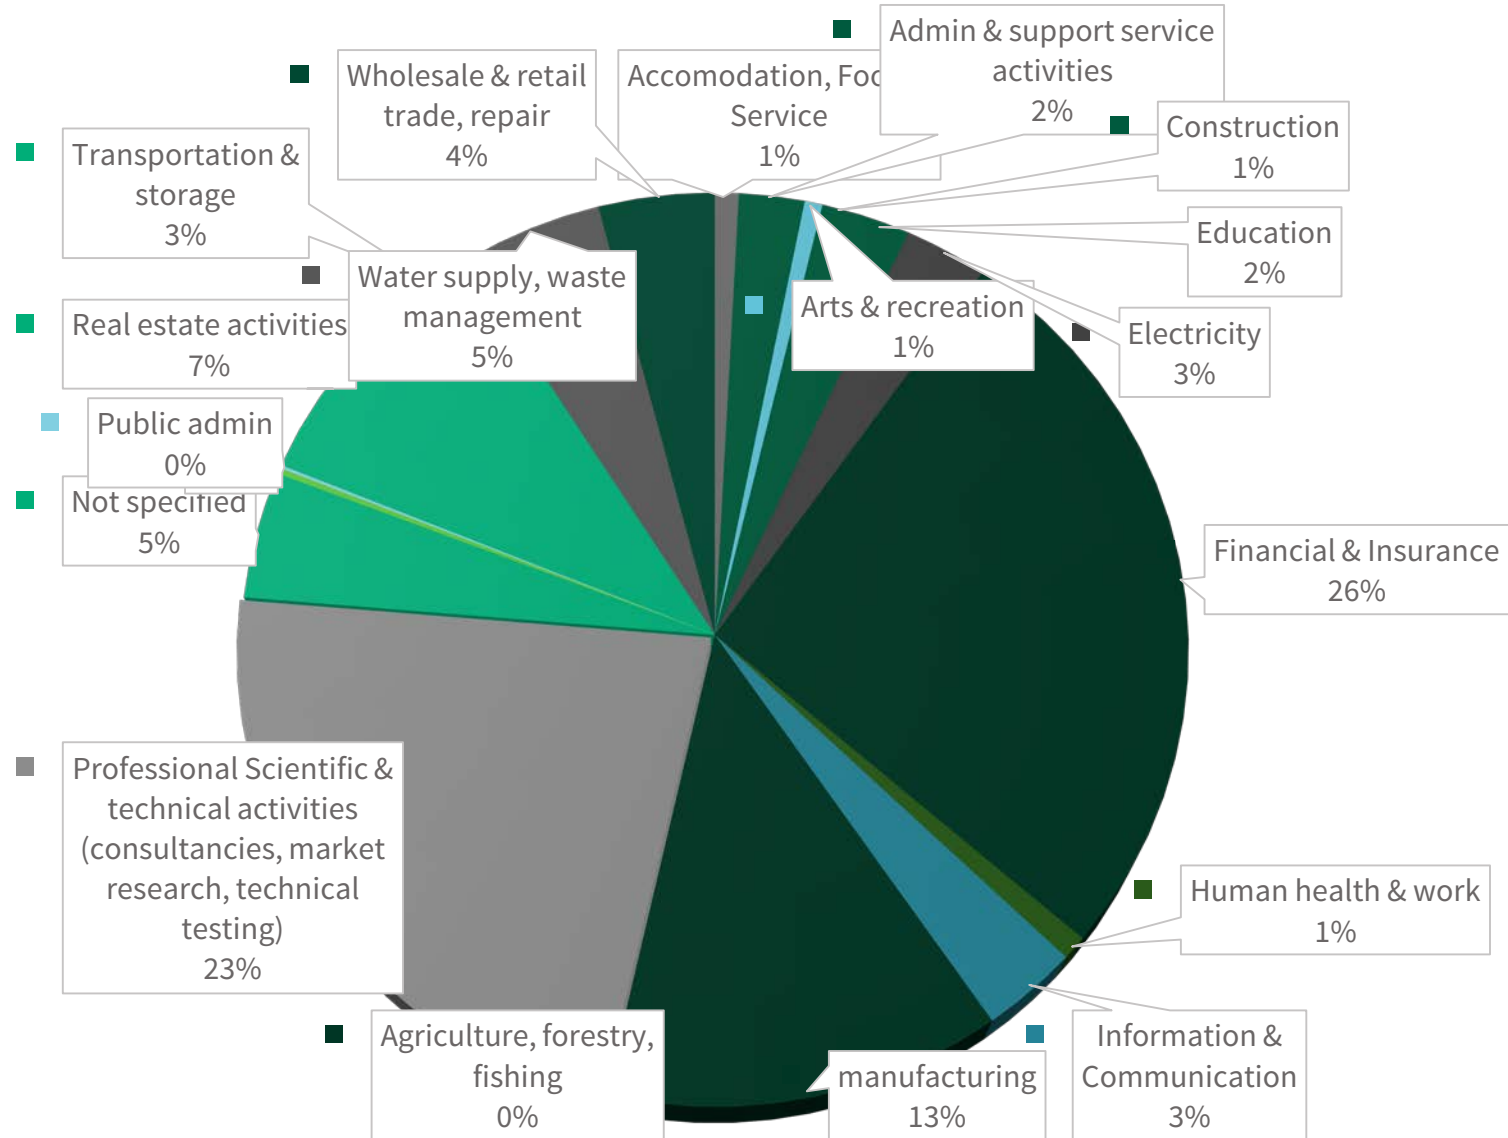

■ listed companies ■ non-listed companies

USERS DIFFERENTIATED ACCORDING TO DUTY TO REPORT

number of companies; n = 944
